

Report from RACC-organisation (CB-meeting in Zurich 2014-10-09)

1. Rule Group

So far I think the bigger rule changes (foot pass and lifting stick high) only hade good effects of the game. I didn't so far see any deliberate foot pass – more kicking it away when players stick is blocked in some way (or the 'normal' stumbling on the ball that we always had). High stick is almost not used in that sense du to the fact that there isn't time to do that on higher lever and I have the feeling that the youth players didn't realize that it is allowed. We will of course continue monitoring this within the RG/RACC-group.

2. RACC-organisation

Education of new Jury has worked well and the tournaments as such is handled under other topics

3. Other topics

These are under other topics in the agenda
